of the **Popular Sovereignty Party**
in this virus pandemic

Party Leader
Masayuki Hiratsuka

1 COVID-19 is just a cold

COVID-19 is a weakly virulent virus that does not cause the death.

2 Against to stay-at-home requests

Going out restrained is make your immune lower and you will get sick.

3 Lift an emergency declaration immediately

The number of needy people and suicides because of self-restraint is much higher than the number of deaths caused by coronavirus.

Get back **our previous life** (before the virus turmoil)

- Do not wear masks (Not need to wear masks)
- Do not take social distancing (Not need to take social distancing)
